Ensure attendees have the right tickets by defining each ticket type. Ticket Session Mapping allows you to assign registered attendees and tickets to specific days and sessions. This feature can also be used to verify attendees at check-in, customize personal agendas, and include ticket types on name badges. To add or edit registered ticket types, update your attendee list.

SESSION CAP

Easily prevent overcapacity at intimate or popular sessions. With the Session Cap, you can set a capacity on your sessions, enroll your attendees into sessions ahead of time, and also check-in your attendees on a session-by-session basis.
